**Chickasaw Plum (*Prunus augustifolia*):** 15ft., deciduous shrub, native to inland areas

**Coastal Plain Willow (*Salix caroliniana*):** 25ft., deciduous tree or shrub, native to wetlands

**Cocoplum (*Chrysobalanus icaco*):** 12ft., large shrub, native to coastal areas

**Coral Bean (*Erythrina herbacea*):** 5ft., deciduous shrub, Brevard native

**Fiddlewood (*Citharexylum fruticosum*):** 25ft., evergreen shrub or tree, native to coastal areas

**Firebush (*Hamelia patens*)** 10ft., evergreen with red flowers, native to hammock areas

**Florida Privet (*Forestiera segregata*):** 10ft., evergreen shrub, Brevard native

**Fringe Tree (*Chionanthus virginicus*):** 20ft., deciduous shrub or tree, native to inland areas

**Lantana (*Lantana camara*):** 6ft., multi-colored flowers, native to pinelands

**Leather Fern (*Acrostichum daneifolium*):** 6-10ft., large clumping fern, native to wetlands

**Necklace Pod (*Sophora tomentosa*):** 5-6ft., arching branches with yellow flowers, native to coastal areas

**Prickly Pear Cactus (*Opuntia spp.*)** 8ft., succulent perennial, Brevard native

**Salt Bush (*Baccharis halamifolia*):** 12ft., evergreen shrub, Brevard native

**Sea Grape (*Coccoloba uvifera*):** 25ft., spreading shrub, native to coastal areas

**Shining Sumac (*Rhus copallina*):** 10ft., deciduous shrub, native to inland areas

**White Stopper (*Eugenia axillaris*):** 25ft., evergreen shrub, Brevard native

**Snailseed (*Cocculus laurifolius*):** 13ft., evergreen shrub, native to inland areas

**Spanish Bayonet (*Yucca alofolia*):** 15ft., spiny shrub, Brevard native

**Walter's Viburnum (*Viburnum obovatum*):** 12ft., evergreen shrub, native to inland areas

**Wax Myrtle (*Myrica cerifera*):** 20ft., evergreen shrub, Brevard native

**Wild Coffee (*Psychotria nervosa*):** 3 ft., evergreen shrub with berries, native to inland areas

**Yaupon Holly (*Ilex vomitoria*):** 20ft., evergreen shrub or tree with red berries, Brevard native

## Florida Native Palms

**Cabbage Palm (*Sabal palmetto*):** 40ft., slow-growing palm, Brevard native

**Dwarf Palmetto (*Sabal minor*):** 6ft., slow-growing palm, native to inland areas

**Needle Palm (*Rhapidophyllum hystrix*):** 5ft., slow-growing palm, native to inland areas  
**Saw Palmetto (*Serenoa repens*):** 8ft., slow-growing clump-type palm, Brevard native

## Florida Native Trees

**American Elm (*Ulmus americana*):** 85ft., shade tree fast-growing, deciduous, native to inland areas  
**Bald Cypress (*Taxodium distichum*):** 70ft., mod. growing, deciduous shade tree, native to wetland  
**Box Elder (*Acer negundo*):** 40ft., fast-growing, deciduous shade tree, native to inland areas  
**Cherry Laurel (*Prunus caroliniana*):** 25ft., mod. growing, evergreen tree, native to inland areas  
**Dahoon Holly (*Ilex cassine*):** 30ft., mod. growing, evergreen tree with red berries, native to inland  
**Florida Red Maple (*Acer rubrum*):** 40ft., fast-growing, deciduous tree, native to wetlands  
**Hackberry/Sugarberry (*Celtis laevigata*):** 50ft., mod. growing, deciduous tree, native to inland areas  
**Laurel Oak (*Quercus laurifolia*):** 60ft., fast-growing, deciduous tree, native to inland areas  
**Live Oak (*Quercus virginiana*):** 50ft., mod. growing, evergreen shade tree, Brevard native  
**Loblolly Bay (*Gordonia lasianthus*):** 35ft., mod. growing, evergreen flowering tree, native to wetland  
**Longleaf Pine (*Pinus palustris*):** 70ft., mod. growing, evergreen tree, native to inland areas  
**Myrtle Oak (*Quercus myrtifolia*):** 20ft., slow-growing, evergreen tree, Brevard native  
**Pignut Hickory (*Carya glabra*):** 100ft., mod. growing, deciduous, native to inland areas  
**Red Bay (*Persea borbonia*):** 55ft., mod. growing, evergreen, Brevard native  
**Red Mulberry (*Morus rubra*):** 40ft., fast-growing, deciduous, native to inland areas  
**Sand Live Oak (*Quercus virginiana geminata*):** 30ft., slow-growing, evergreen, native to coastal areas  
**Sand Pine (*Pinus clausa*):** 40ft., slow-growing, evergreen, Brevard native  
**Scrub Hickory (*Carya floridana*):** 40ft., slow-growing, deciduous, native to inland areas  
**Slash Pine (*Pinus elliottii*):** 75ft., fast-growing, evergreen, Brevard native

**Southern Magnolia (*Magnolia grandiflora*):** 65ft., mod. growing, evergreen with large white flowers, Brevard native

**Southern Red Cedar (*Juniperus silicicola*):** 25ft., mod. growing, evergreen, native throughout Brevard

**Sweet Bay Magnolia (*Magnolia virginiana*):** 50ft., mod. growing, semi-deciduous, native to wetland

**Sweet Gum (*Liquidambar styraciflua*):** 50ft., fast-growing, deciduous, native to inland areas

**Sycamore (*Platanus occidentalis*):** 100ft., fast-growing, deciduous, native to inland areas

**Water Oak (*Quercus nigra*):** 80ft, fast-growing, evergreen, native to wetland areas

**White Stopper (*Eugenia axillaris*):** 25ft., mod. growing, evergreen, Brevard native
