

A Few Requests...

Please remember that Rockledge Gardens is a working business and we're dealing with fragile live plants. With that in mind, we have a few kind requests:

- Please refrain from touching plants unless instructed to do so by the guide.
- Please do not try to catch butterflies or caterpillars in the butterfly house.
- Please keep students out of the pink check-out building.
- Please be respectful and courteous to other customers who are shopping.

For questions or to schedule a tour, please email liz@rockledgegardens.com or call 321.636.7662 and ask for Liz.

Let the gardens be your
classroom!

At Rockledge Gardens we love to share the wonder of gardening with the youngest of greenthumbs! From growing your own food to learning all the particulars about flowering plants and trees to getting dirt under your fingernails, the garden is a wonderful place to learn, grow, and explore.

Our tours are generally focused on the interests of kindergarten through 4th grade but we can customize an experience for older or younger children as well as for groups with special projects or goals.

Tour Options:

Self-Guided Tour

Available Monday-Friday from 9am-4pm
FREE

Guided Tour

Available Monday-Friday from 10am-4pm
\$5.00 per student

Please see side panel for details. To schedule either type of tour email liz@rockledgegardens.com or call 321.636.7662 and ask for Liz.

Tour Details:

Self-Guided (*free*)

The self-guided tour will allow you to tour the gardens at your own pace. Teachers will be provided with a pdf of information that could be included in your tour via email when a self-guided tour is booked. *Self-guided tours are limited to 40 students per day. There must be at least one adult chaperon for every 10 students.*

Guided Tours (*\$5 per student*)

An experienced guide will lead your group through the gardens to explore the various plants, trees and flowers giving plenty of opportunities for students to ask questions. The guided tour can also include a tour of The Farm at Rockledge Gardens, our hydroponic vegetable farm, where students can learn all about growing edibles in a unique and sustainable way. At the end of a guided tour, all students may plant their own flower or vegetable seed at our potting station to take home and watch grow! *Guided tours are limited to 20 students per group (classes may be split up with half starting at The Farm and the other half starting at the gardens and then swapping to accommodate more students). We ask that there be a minimum of 10 students participating for a guided tour. There must be at least one adult chaperon for every 10 students. There is no charge for adult chaperons or teachers.*
