

Formerly called Leonard's Palm fertilizer

For strong, healthy palms, use Leonard's Palm Fertilizer every 2 months, year-round.

Application Rates

Harrell's should be applied to all palms every two months all year long. Always keep fertilizer at least six inches from the trunk and broadcast it evenly under the palm up to the dripline. Apply at the following rates:

1st year

½ cup (¼ pound) for the 1st 2 applications

1 cup (½ pound) for applications 3 through 6

2nd year

2 cups (1 pound) every 2 months

3rd year

3 cups (1½ pounds) every 2 months

More fertilizer can be applied to palms with extra large canopies.
